Subject Index

A

Acquired immunodeficiency syndrome. *see* AIDS

Adolescents. *see* Children

AIDS

incidence

underestimation of, 105-115

interventions

clinical research in, 141-155

partner studies in, 117-128

prognostic markers for, 129-139

Alcohol

consumption

chronic diseases related to, 167-177

during pregnancy, 179-185

quantity-frequency measures of, 157-165

Alcoholism

risk factors related to

assessment of, 157-165

Alpha carotene

vulvar cancer and, 427-437

American College of Epidemiology, 101-102

future of epidemiology, 213-214

international course in epidemiology and

medical research methodology, 381

1989 meeting of (editorial), 103-104

Angina pectoris

myocardial infarction and

ethnic differences in, 415-426

Antihypertensive drugs

weight loss effects on, 371-379

Antioxidants

levels

cancer mortality rates and, 385-393

Arm

circumference

blood pressure measurement in obese effects,
321-226

Aspirin

Physician's Health Study on

early termination from, 395-405

Automated device

for blood pressure reactivity measurement,
57-69

B

Backcalculation

of HIV prevalence, 105-115

Basal cell carcinoma

in women, 13-23

Beta carotene

Physician's Health Study on, 395-405

Bias

detection

disease rates and necropsy related, 551-558

recall

related to food intake in breast cancer,
439-453

Binomial confidence intervals

estimations

for seroprevalence of HIV, 277-281

Blacks

coronary heart disease in, 1-12

(editorial), 97-100

Blood

volume

obesity and, 287-293

Blood pressure. *see also* Hypertension

body fat accumulation effects on, 33-48

body mass related to, 347-362

in children and adolescents, 337-345

measurement of

in obese, 321-336

reactivity

automated devices for measurement of, 57-69

weight reduction effects on, 363-370

Body

composition

fat, blood pressure and hypertension effects
on, 33-48

femoral bone mass and, in premenopausal
women, 245-254

hypertension related to obesity and, 313-319

mass

blood pressure related to, 347-362

Body mass index (BMI)

blood pressure related to

in children and adolescents, 337-345

Bone

mass

in women, body composition and age effects
on, 245-254

Breast cancer

alcohol consumption related to, 167-177

- Breast feeding
 PCBs and DDE exposure from
 child development effects, 407-413
- Breast neoplasms
 diet related to
 reporting of, recall bias related to, 439-453

 - basal cell carcinoma, in women, 13-23
- Small population
 - mortality from ischemic heart disease in, 493-503
- Smoking
 - pulmonary function associated with mortality and, 25-32
- Spirometry
 - leukocyte count and, 525-531
- Statistical modeling
 - for HIV virus, 105-115
- Steroid receptors
 - status of
 - breast cancer epidemiology related to, 513-523
- Stress disorder
 - posttraumatic
 - among Vietnam veterans, 505-511

Stroke

- alcohol consumption related to, 167-177
- in elderly
 - Cardiovascular Health Study for, 263-276
- international studies on (editorial), 567-569

Sudden death

- race factors in, 1-12

Surgery

- hysterectomy
 - descriptive epidemiology of, 541-549

Sympathetic nervous system

- insulin effects on
 - related to hypertension in obesity, 295-303

Systemic hemodynamics

- obesity-hypertension and, 287-293

T

Transmission

HIV

- partner studies on, 117-128

Trends

- in mortality from heart disease
 - geographic differences in, 493-503

Trials

- foreign
 - on cancer prevention, 195-203

U

Ultraviolet rays

- basal cell carcinoma from
 - in women, 13-23

Uric acid

- levels, cancer mortality and, 385-393
 - (editorial), 473-475

V

Vaccines

HIV

- clinical trials in, 141-155

Ventricle. *see* Left ventricle

Vietnam veterans

- Posttraumatic stress disorder among, 505-511

Virus. *see also* specific virus

- cancer associated with, 71-92

Vital capacity

timed

- leukocyte count effects on, 525-531

Vulvar cancer

risk of

- diet and, 427-437

W

Weight. *see also* Obesity

- blood pressure related to, 347-362

changes in

- cholesterol level effects, 487-492

reduction

- blood pressure effects, 363-370, 371-379

Women

- basal cell carcinoma in, 13-23

- mortality from ischemic heart disease in
 - geographic differences in, 493-503

premenopausal

- femoral bone mass in, 245-254

pulmonary function

- leukocyte count relationship to, 525-531

Z

Zidovudine

- clinical trials in, 141-155

- underestimation of AIDS prevalence and,
105-115
